1 Purpose

The purpose of this document “Basic Principles of Business Conduct and Ethics” is to highlight basic principles of the:

- a) Code of Business Conduct and Ethics effective from 1 September 2024, (“**Code of Ethics**”) of EmbedIT s.r.o., with its registered seat at Evropská 2690/17, Dejvice, 160 00 Praha 6, registered in the Commercial Register administered by the Municipal Court in Prague, under file no. C 367199, Id. No. 171 39 708 (the “**EIT**” or the “**Company**”)
- b) Group Conflict of Interests Policy.

The EIT Code of Ethics has been approved by the CEO as an EIT Executive Director. The Group Conflict of Interests Policy has been adopted by the EIT by decision of EIT executive directors. Both are binding for all Staff of the Company.

EmbedIT, as a member of the Home Credit Group (hereinafter “**Group**”) maintains reputation of conducting its business activities in the highest ethical and professional manner. Reputation and integrity belong to Group’s most important assets and are instrumental in its business success.

The EIT **Code of Ethics** states fundamental principles, rules and values of EIT that must be complied with by each person working at all levels of EIT, including, without limitations, all full-time and part-time employees, executive directors, officers, directors, senior managers, consultants, contractors or any other third parties acting on behalf of EIT or performing any services for or on behalf of EIT in a position similar to that of employees (together as the “**Staff**”) during their day-to-day activities. The EIT Code of Ethics also sets out a framework within which all other internal regulations of EIT shall be interpreted, provides guidance and sets common ethical standards to promote consistency in behaviour across all levels of Staff.

The purpose of the EIT Code of Ethics is to promote honest, ethical and professional business conduct and to ensure compliance with laws, regulations, rules and related self-regulatory standards in order to protect the business and reputation of EIT as well as the best interest of its shareholders, customers, and other stakeholders.

The list of rules in the EIT Code of Ethics is not and cannot be exhaustive. In matters, situations, and relationships not expressly covered by the Code of Ethics, EIT and its Staff are obliged to act and behave in accordance with the principles and objectives of the EIT Code of Ethics, legal regulations, international policies, good morals, rules of ethics, and fair commercial conduct in order to maintain and develop the goodwill and reputation of EIT and the Group.

2 Company Values and Compliance

EIT is highly committed to respecting and complying with legal regulations, international treaties and also fundamental moral principles and fair commercial conduct. This applies to all areas of EIT business and activities and in relation to all third parties, public authorities, and also all its Staff.

EIT respects national legal orders of those countries where it operates or any territories which may be affected or influenced by activities or conduct of EIT. EIT also respects international treaties and agreements and any undertakings or obligations implied by them for EIT.

Within each of their acts on behalf of EIT, its activities, or for its benefit, the Staff are obliged to comply with and respect the relevant legal regulations and standards and to represent EIT and the PPF Group through their behaviour to preserve their goodwill and reputation and not to give rise to any doubts concerning the

activities of EIT and the PPF Group. Also, in their private activities, the Staff act only and strictly in accordance with the values and rules outlined in the EIT Code of Ethics to avoid harming EIT or the PPF Group or their goodwill and reputation.

EIT strictly condemns and rejects any delict conduct or any behaviour or activity that is not in accordance with legal regulations or the EIT Code of Ethics. EIT and its Staff are bound to refrain from any conduct or activities which might be found delict in terms of the public law and regulations, and thus might be regarded as a criminal offence, administrative offence or infraction.

If in doubt regarding the application of laws and regulations to their conduct/activities, the Staff are obliged to consult the matter with their Business Line Manager, Compliance or the PPF Group Legal Department always in accordance and within the meaning of an EIT Internal Guideline designated as the Rules for Handling Notifications under the Code of Ethics. In order to avoid any delict conduct by the Staff, and to ensure that all relevant persons have a thorough knowledge of the Corporate Compliance requirements, obligatory training is provided to the Staff on a regular basis.

At the same time, all organizations face the risk of things going wrong, or of unknowingly harbouring illegal or unethical conduct. A culture of openness and accountability is essential in order to prevent such situations occurring or to address them when they do occur. The aim of the EIT Code of Ethics is also to encourage the Staff to report suspected wrongdoing as soon as possible, in the knowledge that the Staff concerns will be taken seriously and investigated as appropriate, that their confidentiality will be respected, and that they will be protected from retaliatory actions.

3 Basic Rules for Third-Party Relationships

Third-party relationships include, however, not exclusively, the relationships between EIT and public authorities, business partners, suppliers, customers, potential customers, media, and the public – i.e. any relationship that involves EIT or a Staff acting on behalf of EIT, within its activities or to its benefit, and that also affects any third party.

EIT does not tolerate and strictly rejects any match fixing of its economic results for any purpose.

3.1 Acquiring and Promoting Business and Professional Ethical Conduct

The Staff are required to carry out their professional duties in line with “good manners” and with respect to EIT’s and Group’s ethics principles including the respect and dignity to all colleagues, customers, and other individuals.

The Group seeks to outperform its competition fairly and honestly. The Group seeks competitive advantages through superior performance, not through unethical or illegal business practices. Indeed, all the Staff are expected to exhibit the Group’s shared value of integrity. The EIT’s officers and directors have ultimate responsibility for setting the direction and tone of the EIT’s internal regulations and practices in line with this shared value of integrity.

The Staff shall carry out their responsibilities honestly, in good faith and with integrity, as well as behave with due care, competence, prudence and diligence, exercising their best independent judgment at all times.

The most productive environment is that where the Staff are valued and treated with respect and dignity and where there is no unethical behaviour. Ethical behaviour encompasses the concepts of honesty, integrity, probity, diligence, fairness, trust, respect, consistency, and privacy. It includes avoiding conflicts whenever possible, and not making improper use of an individual's position or of

someone else's work without proper acknowledgement. Nobody should be forced to listen to bad language or insults or be belittled in front of others in any way.

3.2 Relationships with Public Authorities

EIT cooperates with public authorities openly, transparently, and according to all relevant rules. All legally effective decisions and binding instructions of public authorities must be fully respected.

EIT and its Staff never and under no circumstances attempt to illegally influence decisions or procedures of public authorities. Any potential attempts in this regard are absolutely rejected and not tolerated by EIT.

EIT and its Staff are bound to refrain from any acts or activities which might give rise to any doubts about the nature of their relationships with persons acting on behalf of public authorities, in particular when such officials decide about awarding contracts.

EIT and its Staff are obliged to comply with all applicable laws when cooperating with public authorities. EIT and its Staff must provide public authorities with accurate, true, and up-to-date information and supporting documents as required.

3.3 Relationships with Business Partners, Suppliers and Customers

EIT has an interest in free development of markets where it operates.

When dealing with business partners, suppliers and customers, EIT and its Staff must always comply with all applicable laws and regulations.

In their relationships with business partners, suppliers, and customers, EIT and its Staff provide only true, complete and accurate information. In particular, the Staff are obliged to provide true information on performance and results generated by EIT and the PPF Group and any other information relevant to a decision of a supplier or business partner, and not to conceal any decisive circumstances. The provisions of clause Disclosure of Information and Provision of Information to Media and clause Confidentiality are without prejudice to the previous sentence.

Before entering into a transaction on behalf of EIT, the respective Staff are obliged to (i) learn and follow all relevant laws and regulations and (ii) make sure, within their means, that the potential business partner is not involved in any illegal activity and its financial resources are legal and that concluding the transaction would not be in contradiction to the provisions of clause Restrictive Measures and Other International Sanctions.

The Staff obtain information on competitors and customers only in a manner that complies with legal regulations and from legal sources. Within their activities, EIT and its Staff never knowingly state untrue or distorted information on competitors, their products and services.

The Staff are prohibited from entering into agreements on behalf of EIT with competitors whether oral, written or implied, formal or informal, in relation to any aspects of competition, namely concerning price, sales terms, product range, preferential product or service supply conditions or any agreements which could have prohibiting impacts on competition.

The Staff must avoid any act that could be assessed as an attempt of EIT to achieve an unjustified advantage in an award of a public contract in a public tender or a public auction, or of affecting their course.

3.4 Prevention of Corrupt Practices

3.4.1 Bribe and General Restrictions

EIT absolutely rejects and the Staff shall refrain from any act, directly or indirectly, of receiving, providing, offering, or promising of unfair benefit, unauthorized performance or performance without legal grounds, regardless of form or manner of providing such benefit or performance in order to gain any commercial, contractual, regulatory or personal advantage (hereinafter referred to as a “**Bribe**”).

Any cash or non-cash performance provided directly or indirectly, the goal of which is to generate profit or maintain business in other manner than through own economic performance, influence a business or other decision, and/or arrange an unfair benefit are deemed to be a Bribe.

If a Staff member is asked to make a payment on EIT's behalf, the Staff member should always be mindful of what the payment is for and whether the amount requested is proportionate to the goods or services provided. The Staff should always ask for a receipt which details the reason for the payment. If the Staff has any suspicions, concerns or queries regarding a payment, the Staff should raise these with a member of compliance, Head of Group Compliance or Group Chief Legal&Compliance Officer (hereinafter referred as “**CLCO**”).

Prior to giving or receiving a gift or any other performance (e.g., payment for services), the Staff are obliged to learn the relevant rules of legal regulations, internal regulations of EIT and the applicable and available internal regulations of the business partner, or the relevant cultural and social conventions.

The Staff must take extra care when interacting with public officials and their Family Members to avoid even appearance of impropriety.

3.4.2 What is Not Acceptable regarding Gifts and Hospitality

It is not acceptable for the Staff (or someone on Staff's behalf) to:

The giving or receipt of gifts is not prohibited, if the following requirements are met:

All requests for charitable contributions and sponsorship (donations) above certain value must be approved in advance by approval authorities as specified in the EIT Code of Ethics.

EIT does not make contributions to political parties, political organisations, or independent candidates. EIT respects the right of the Staff to make personal contributions, provided they

are not made in any way to obtain advantage in a business transaction. Contributions to political parties or candidates by the Staff, acting solely in their personal capacities, may not involve the use of any Company funds or office space and must be made in accordance with all applicable laws and regulations.

EIT only makes charitable donations that are legal and ethical under local laws and practices. The Staff can make charitable contributions or sponsorships on behalf of, or in the name of EIT only for bona fide charitable, educational, humanitarian, non-profitable or cultural purposes. Charitable contributions or sponsorships should never be used as a substitute for political contributions.

EIT cooperates only with business partners, suppliers and customers whose business plans are, according to knowledge of EIT and its Staff, financed from legal sources. For this purpose, the Staff collect and maintain documents and information related to business partners and transactions performed.

During any transfer of assets performed by EIT within its activities or interest, the relevant Staff member is obliged to duly designate the recipient of performance and the purpose of performance provided. All transfers of assets performed by EIT within its activities must be duly recorded in the relevant documentation.

As a precaution EIT acts so as not to unreasonably expose itself, directly or indirectly, at risk of breach of the Sanctions.

EIT, through the Compliance, maximizes its best effort in the process of monitoring Sanctions and related risks for EIT. EIT adopts and implements measures and procedures which are necessary to prevent and avoid risks relating to the breach of the Sanctions.

Filing the Submission is not sanctioned by EIT in any manner and the Staff will not suffer demotion, penalty, or other disciplinary action for reporting. However, knowingly untrue or vexatious Submissions will not be tolerated.

An Internal Guideline may be issued and developed by the Chief Administrative Officer to provide guidance procedure applied to the internal processing of the Submissions (Guideline titled Rules for Handling Notifications under the Code of Ethics).

Group CLCO also reports to the HCNV BoD and to the CEO and to the Group CEO all major violations of the EIT Code of Ethics or the internal regulations and procedures referenced herein even if identified not through a Submission.
